

Andrew Murray's *Abiding in Christ*

Chapter Thirteen

1. Murray explains abiding as that “willing, intelligent, and wholehearted surrender by which we accept His offer and consent to the abiding in Him as the only life we choose or seek”. What does this look like?
2. Murray mentions two objections to man’s ability to always abide in Christ. Refute each using Murray’s arguments, your own words and/or Scripture.

Nature of man -

Sinfulness of man -

3. When the hour comes of weary struggle and bitter failure, how can we handle the sinful nature that hinders us from abiding?
4. Caleb and Joshua stated that “we are well able to overcome...if the Lord delights in us, then he will bring us into this land (Numbers 13;30, 14:8). What can we learn about abiding from their statement.
5. Satan often is present for moments of struggle and failure. What are thoughts/attitudes we may have during those times that are clearly from him? In contrast, what are godly responses/Scripture for such moments?
6. Is unceasingly abiding in Christ possible? Explain.
